

Press Release – For Immediate Release

Hunter Systems Group, Inc. Releases Hunter Visage™ Identification System

Hunter Systems Group's New System Provides Law Enforcement, Higher Education and Businesses More Effective Badging Security

Scituate, MA. September 16, 2010. Hunter Systems Group, Inc., a leading software and consulting company for the public and private safety sectors, today released **Hunter Visage™**, a new state of art identification and badging solution for law enforcement agencies, colleges and universities and business organizations. **Hunter Visage™**, which employs Hunter System Group's Hunter SmartShot® mugshot software application, provides institutional security departments the means to capture images for identification purposes in a more efficient and cost effective manner.

Hunter Visage™, with its advanced biometric capabilities, is a budget-friendly system that captures images for perfect identification badging every time. Numerous options are available with **Hunter Visage™** from the simple and cost effective badging solutions of its home office capabilities, to the use of the value-added Hunter Systems Group's proprietary Hunter SmartShot® mugshot software application for perfect NIST-compliant pictures that incorporate bar code readers for easy transition into smart card creation.

"**Hunter Visage™** fulfills many needs in the public and private safety arenas," comments Mark Thompson, President of Hunter Systems Group, Inc. "**Hunter Visage™** provides cost conscious organizations with a viable badging solution while at the same time providing larger institutions and departments the peace of mind of an all-in-one identification solution that may be integrated within that organization's existing management systems."
